PROGRAM AND AGENDA

e-Development Conference 2026

December 3, 2026 • Hotel Palace Belgrade • 09:30–16:00

Theme: *Digital Development and Sustainable Growth – Business and Technology Perspective*

Conference Overview

The e-Development Association will hold its 16th annual conference under the working title e-Development Conference 2026 at Hotel Palace Belgrade on December 3, 2026, from 09:30 to 16:00.

The e-Development Conference 2026 is the 16th annual professional and business conference of the e-Development Association. Over sixteen years of continuous work, the conference has grown into a recognized platform for the exchange of knowledge, experience, and ideas at the intersection of business, technology, and social development.

The conference theme, “Digital Development and Sustainable Growth – Business and Technology Perspective,” focuses on the real challenges and opportunities of modern business in a digital environment, with special emphasis on the responsible use of technology, long-term sustainability, and the creation of stable business value.

The conference will bring together representatives of business, the technology sector, institutions, and the professional community, with the goal of offering answers—through open dialogue, practical examples, and strategic insights—to the question of how digital development can become a pillar of the sustainable growth of organizations and society as a whole.

The e-Development Conference is not just an event—it is a platform where digital progress meets responsibility and a vision of a sustainable future.
